

#### SATELLITE COMPLETED FOR DST

*Faculty of Engineering – home to innovation. After undergoing rigorous tests, the completed Sumbandilasat was handed over to the Minister of Science and Technology in 2006. The University managed the project while Sun Space built the satellite. The project for the Department of Science and Technology (DST) came to about R36 million, the largest contract yet carried out by Stellenbosch University. Admiring the completed Sumbandilasat, Mr Mosibudi Mangena (left), Minister of Science and Technology, and Prof Sias Mostert.*
